MATERIAL SAFETY DATA SHEET

1	PRODUCT IDENTIFICATION	ALUMINIUM POWDER/ CAS7429-90-5
2	COMPOSITION/INFORMATION ON INGREDIENTS	Aluminium 100%
3	HAZARD IDENTIFICATION 3.1 EYE 3.2 SKIN 3.3 INGESTION 3.4 INHALATION	Aluminium Dust may cause abrasion Aluminium Dust may cause irritation on repeated contact. Negligible effect. Aluminium Dust are considered nuisance particulates, which have little adverse effect on lungs and do not produce significant organic disease or toxic effects when exposure are kept under control.
4	FIRST AID MEASURES 4.1 EYE 4.2 SKIN 4.3 INGESTION 4.4 INHALATION	Flush with water for at least 15 minutes. Seek medical advice. Remove contaminated clothing and wash affected area of skin with soap and water. Seek Medical Advice Remove to fresh air. If discomfort persist, seek medical attention.
5	FIRE FIGHTING MEASURES: Unusual Fire and Explosion Hazard Special Fire Fighting Procedures	Use class "D" dry chemical extinguishing agent or other suitable extinguishing material such as dry sand. Do not use class "A", "B" or "C" extinguishers or halogenated agents. Do not use water. Water and burning finely divided aluminium react violently forming hydrogen gas and aluminium oxide. Aluminium particles will burn at a very high temperature as a mass of material or be potentially explosive if loosened and dispersed in air. At no time allow a dust cloud to be formed. This material is potentially explosive when loosened and dispersed in air. Gently cover the burning powder and form a ring around it with the extinguishing agents recommended. Do not actually mix the agent

		with the burning powder and do not disturb the powder until it cools to ambient temperature. At no time allow dust clouds to be formed.
6	ACCIDENTIAL RELEASE MEASURE	Dispose of in approved hazardous landfill. Remove all ignition sources. Keep people away. Avoid exposure to sparks, fire or hot metal surfaces. Using non-sparking tools, transfer spilled material to a leakproof container for hazardous disposal.
7	HANDLING & STORAGE	Empty containers may retain residues (liquid, powder, or vapor) and can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat, flame, sparks or other sources of ignition; They may explode and cause injury or death. All containers should be disposed of in an environmentally safe manner. Store in a cool dry area with ventilation suitable for storing materials.
